Former Governor Would Let Counties of State Build Roads.

By The Ausociated Press COLUMBUS, O., Oct. 13-Vic. small-time show. Donahey, thrice governor of Ohio, today stood committed to a charge that the state highway department is an expensive and "unnecessary governmental function" that should; be abolished.

Addressing a meeting of Democrats, the former executive flailed the mounting costs of road building." urged support of the 10-mill tax levy limitation amendment, and called for higher taxation of large fortunes.

He carefully avoided statements that might have construed his own political course.

"When a man dies, the govern ment should step in and get its share." Donahey said of a tax on estates. "If higher taxes on for tunes are not placed in effect, th propie should arm themselves wit hickory clubs, march on the legis lature and show them it is their duty to tax swollen fortunes. "Such taxation must come in an

orderly manner, or mank my word. Stains of Powder or Nitroglyit will be in a disorderly manner." the highway department, Donahey asserted it spent \$32,000 .-000 in 1932 and has been spending more and more during every administration, "including my own." The wage of cutters is fixed on a piece-work basis.

LIQUOR CONTROL PLANS OUTLINED

With repeal of the Eighteenth amendment now apparently assured, the question of what system of liquor sale is to be adopted is already being given consideration. For that reason a series of four articles on the liquor marketing plans in effect in other countries that has been prepared by The Associated Press is unusually timely and interesting. The first of the four articles appears in The Star today.

At revolutionary low prices Gillette offers a service

Recognizing that every man's shaving problem is different, Gillette provides a complete line of blades to meet varying requirements. Drastically reduced in price - these blades put matchless shaving comfort and satisfaction within the reach of all men.

Read the brief statements below. Buy the blade suited to your special requirements and get supreme

> The "Blue Blade"— positively the harpest we have ever produced-is especially recommended for men with tender skin. Its smooth, superkeen edges glide across sensitive

faces without pull or irritation.

The Probak blade-while extremely sharp-has an entirely different type of edge and is particularly adapted for shavers with tough or difficult

Science Shows Now to End Body Odor in This Hard Water

Scientific tests have made clear at last why body odor- after one bathes with ordinary soaps—soon belos up-ngain. Their sticky, sluggish lathers cannot work into the pores, and so-cannot remove the embedded stale perspiration. Instead they clog the pores with curds.

The new and positive way to beat body odor is deep-pere cleaning. One soap will do that, Kirk's Coccastile, made by America's largest soap makers. In the hardest water, it breaks instantly into a searching lather. It cleans deep into the pores, actually removes the embedded per-spiration - then ringes out completely and in a flash. Thus it ends body odor at its source... the only effective way.

This 100% pure vegetable oil soap is odorleas leaves no offensive M.S. (medicine smell) is stimulating to the skin. Ava. able everywhere in a big generous cake, half again larger than the average testet soap, it is now selling at the lowest price in history. AGIGANTIC

To SellOut Everything From The Basement to the Roof---Including All Warehouse Stocks

IMPORTANT—READ EVERY WORD

Months ago we bought heavily at the old pricesthe country's finest furniture values. The dead line was October first. We couldn't hold it longer. We couldn't cancel. Now cars of this fine furniture is piling up on us. We have no place to put it. Our warehouse is jammed. It is expensive to hold it, waiting for the decorators to finish the store after the Fire Sale.

We decided to sacrifice all of it - make a clean sweep of our whole stock. \$25,000 worth of Schaffner's dependable furniture to be disposed of along with the cream of this smoke damaged stock of furniture, rugs stoves and draperies in the Fire Sale.

Signs of Sense.

If there were to be conducted in the United States an annual poli of signs of sense among the people surely a place would have to be given the country's reaction to the recent death of Morris Hillquit, Socialint leader. Here was a man who devoted a lifetime to an ardent struggle against an conomic system in which he did not be-Heve, a system supported by an overwhelming majority of his countrymen. Yet, in death he was honored in measure equal to that of a national hero.

One of the most advanced tributes that can be paid any man is acknowledgement of his sincerity. It was that tribute which stood out in all the many comments on the passing of Morris Hillquit. He was a genuine and honest leader in a movement which looked to him for inspiration over & period of 40 years. He was neither a radical nor an impractical theorist, it was at the same time his failing and his strength to believe that the idea in which he believed could be put into practice by peaceable

Known over the world for his intellectual ability, he reinforced that capacity with an extraordinary grasp of political methods. It was his political ability which enabled him to poll in New York City in 1932 the largest vote ever accorded a Socialist candidate in an American municipal election. It was his intellectual gifts which enabled him to win the sincers respect of men whom he opposed bitterly in his endless debates. It is probable that he never expected to gain the power that goes with office, but he lived to see many points of his program adopted by his opponents.

Socialism of the kind he advanced has done a great deal for the United States in its struggle to become a country where the common man is given guarantees of protection. Morris Hilliquit deserved generous credit. It is a sign of sense that it given to him-much of it while he yet lived and the remainder on the occasion of his death.

An Obvious Fact.

It is accepted without very serious quastioning that good government cannot be achieved without a broad base of interest among the people it serves. About this time of year, the axiom is put forward as a pleafor registration,

There is a minority which argues that representative government has nothing to gain by a heavy turnout at the polis, but their statement, unfortunately, is an admission in itself that representative government is a misicading dream. There is no disposition among the people to agree with that conviction yet. While they continue to pin their faith on the system, they will agree that its potentialities must be developed as fully as possible to achieve the fullest re-

Voters who are organized in that compact formation Americans vividly describe as "the machine" register 100 per cent, It is part of their routine. Their busses, obviously, would not be able to exercise the slightest power if, when election day came, their supporters were unable to exercise their constitutional privilege at the polls. Unorganized voters, however, observe no such routine. As long as there continues to be any considerable group of them failing to vote there can be the claim that the representative system has failed to work as far as they are concerned. It has failed because it has not been tried

Serious Business.

Monocles are falling from startled faces and pipesteins are being marred between clenched teeth as the British face once more the unpleasant fact that warships without loyal men to run them are as worthless as so much metalic junk. The battle cruiser Hood, pinde of the British fleet, has been desecrated again by shocking evidence of insubordination.

Two years ago the world, never permitted to forget for long at a time that Britain rules the waves, gasped in amazement as the Hood was put about on its way to fleet maneuvers because of trouble on board. The incident was kept as quiet as universal interest would allow and might have been forgotten entirely in a few more years. Unexpectedly, however, the same thing is reported to have happened again,

Arrangement of the calendar of the fe eral supreme court indicates that tribin intends to handle directly cases pending to fore it which deal directly with the legis tive structure of the new deal. This parfially answers a question which has been active since the first days of the Rooseve's administration.

The supreme court has the power to make or break the legislation on which the recovery program is based. It has been argued that for reasons of expediency it might postpone consideration of cases involving the constitutionality of certain of the program's points until its legal life had . He could not take it: expired. Apparently, this is not the intention of the justices.

Their decision to deal quickly with certain cases that have arisen from problems of the new deal does not mean, however, that the legislative foundations of President Roosevelt's plan are in grave danger. Actually, there is less to be feared from the supreme court than from an even more severe court-the high court of economics.

It is not probable that any salient point of the recovery program which is given a clean bill of health in the latter court will be endangered by the deliberations of the justices of the supreme court of the United States. This will not need to delay consideration of cases involving such points to insure safety; it is inconceivable that any act which has proved effective in overcoming the emergency could be set aside by the

Even if this probability were not evident, it should not be forgotten that the legislative framework of the recovery program is destroyed automatically when its statutory life is at an end. Obviously, indispensable parts will be retained; the rest will be destroyed; therefore, it is less a matter of what judges may decide than of what people may conclude by watching the recovery program in operation.

The Big Month.

Electioneering starts in carnest this month. Although it seems that only yesterday candidates were pleading for support in the primaries, the calendar and the temperature show that November isn't far

By the token that interest in the primaries was strong, the prospect of "good" campaigns is before voters in most communities. Concentration of attention on federal politics is helping undoubtedly to entiven interest in local contests.

What is a "good" campaign? In the ordinary sense, it is one in which there are no dull moments. Interest is sustained by any device that comes to hand. Politics being what they are and politicians being what they are, mud-slinging is the most familiar method of holding the crowd.

There is, of course, no place for mudslinging in any race where it is not essentini to deceive voters. Petty personal charges, half-truths and all the dirty tactics. of politicians who aren't particular about hiding the fact that they are fighting for a place at the trough insult the intelligence

Not all voters are intelligent, unfortunately. That comes close to bring the unalterable and fatal weakness of the Ametican plan of government. There alway will be an audience of unintelligent voters. eager to lap up whatever dirt the un-crup is " lons politicians can throw down. It is a matter of choice with politicians whether , to or not they want to appeal to intelligence of Mr. select in celebration of Mr. or human fallibility.

In events of the next month a good deal will be disclosed of the current status of political morale in Oblo's counties and cuies. There is no lack of vital issues for candidates to discuss. It remains to be seen to the first of Michon, whether the closing days of their campaigns at the constructive comment and the constructive construc whether the closing days of their campaigns argumentation or to the destructive and intolerable methods by which a low or her and a restrict to a honor of the new pasof political candidates has threatened to perpetuate itself in office.

Behind The News In

Washington And Wall Street

BY GEORGE DURNO

WASHINGTON, OH. 13 Plenty of potential police si pyrotechnics he back of William E. Humphrey's absolute refusal to admit he's out as a Resublican member of the federal tract commussion.

Repercuesions undoubtedly will be repercussing all over the floor of the U.S. schale when congress convenes in January. It is a swell partisan issue into which the Republicans can sink their hungry NRA--the first and only member teeth.

But more is back of the row than has appeared in print. It hasn't been merely a demand by President Roosevelt for Hollowick resignation and an insistent relusal on Humphrey's part to acquiesce thereto.

If our best car-to-the-ground operatives are to be believed, the beleagued federal trade commissioner is playing a deep game by declining to roll over and play dead. There is reason to believe he was egged en by th big-shot stratgists of the Republican party.

In fact there is circumstantial evidence lying around in the darker corners that justify a sunrise Herbert Hoover in person might have had something to do with the Humphrey decision to fight it out to the last ditch. The commissioner has been serving by virtue of a Hoover appointment.

It all goes back to the time the former President paid a visit to Chicago's Century of Progress. 111

At least four stalwarts of the last administration also found it convenient to go to Chicago at the same time. They meluled John Cal O'Laughlin, treballed man to Republican National Chairman Everett Sanders Lawtence Bichey, who was Mr. Hoover, emel and confidential secretary, Per Harley, who was secretary of war, and Mark Sullivan newspare: comesspondent and author who has come to be recognized as the in- de historian of the Heover administra-

Reports belatedly trickling back Washington would indicate there was more to this huddle than a family reunion.

of the late Republican cabinet to The former sectatory of war said at the time he had been urged to make the speech by his old friend, General Johnson, as a fine-nonpartisan gesture. Some of his political opponents have been mean enough to bint he engineered the address to put himself back in the linelight because he has designs on the senatorial seat now held by the

blind Thomas P. Gore of Okla-

homa. Anyway the wire-tappers report that Pat called Palo Alto on the long distance 'phone and asked his ersiwhile chief how about it before he finally signed up for the speech.

Whose Bahy? And then he went to Chicago. Circumstantial evidence indicates

that the NRA speech was discussed there. At any rate he saw Mr. Hoover. When the final draft was deliveted to NRA for mimeographing

and distribution it lauded the Blue Eagle all right and called for public support. It also inferred that all of the

emergency recovery measures now in effect had their inception back in the Hoover administration and suggested that the public had criticized the former President too harshly.

Exile

Local political insiders will tell Tammany Napoleons, Curry and McConey, are headed for Elba and even for St. Helena.

Nobody wants to ride on a bandwagon with four flat tires. The city democracy will be reorganized with McKee and Flynn in charge. The old-timers would rather have a half-loaf with McKee than nothing at all.

This means that Brooklyn or the Bronx will ride in the driver's seat. Manhattan's traditional leadership, through Tammans will be thoroughly smashed. This island will drop to its place as a deflated but whether they earn what they borough.

The stampede to the new bandwagon has now assumed proportions where even the faithful concede O Brien has no chance to win. Key men expect him to finish a poor third.

The inside infection started when Al Smith made a public speech last summer which cast doubt on the possibility of O Brion's reelection. This inspired a big whispering campaign which the leaders found it impossible to stop Then came the primaries and the

shock. The district lenders counted on last year's landshide and did little work- with little money. Even the policemen and firemen walked out on the bosses to vote for Pual and their loyalty to the organization had been guaranteed by their political leaders Meanwhile McCopey and others

The Chamber's participation in the tax reduction movement which was followed by two slashes in the tax duplicate resulted in savings which would pay the annual mem bership dues of property owners paying more than \$150 a year is taxes, he said

Following talks by A. A. Var. Atta and Mrs. E. J. Hollandshead on the activities of the Sunday school services for Marion's unemployed, the club authorized its of ficers to study possible means of giving assistance to the Sunday school in obtaining winter quarters.

LAUNCH DRIVE FOR COUNTY HOME RULE

By The Associated Press CLEVELAND, Oct. 13 -- Ohio taxpayers "are paying the price of a ramshackle and irresponsible form of county organization," Charles P. Taft, 2nd, declared in opening a campaign for adoption of the home rule amendment to the state constitution. Opposition to the amendment, he said, so far has come only from local officials and is presented through missiate-

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be trolled It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all invited to keep ready for use It makes. approved riquid taxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. Member N. R. A.

WITH COMMON CONSTIPATION

Kellogg's ALL-BRAN Brings Relief

Constipation gets its grip on a person almost unawares. It often starts with such little things. Headaches. Listlessness. Bad complexion. Unpleasant breath. If unchecked, it may seriously impair

Fortunately, you can avoid this danger by eating a delicious cereal Laboratory tests show that Kellogg's ALL-BRAN provides two things needed to overcome common construction: "bulk" and vitamin B. ALL-BRAN is also a rich source of iren for the blood.

Biological tests demonstrate that the "bulk" in bran is similar to that in leafy vegetables. Inside the body, it forms a soft mass, which gently Cars out the intestinal wastes.

How much better than taking unpleasant patent medicines. Two tablespoonfuls of ALL-Bran daily are usually sufficient. Serious cases, with every meal. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Eattle Creek.

MARRYING FOR CASIL Faith Baldwin oplnes (in a recent newspaper article) that the title-marrying market is due for a

big slump.

Well, this country is becoming positively stuffy" with foreign titles, and over-production is as bad for the title market as for the cotton market. But the American people are still sufficiently naive to be dazzied by the glitter of a coronet, and thrilled by crested note-paper or a ribbon across the chest. If the title-market ever crashes, it will be because American millions have evaporated, or because the titled boys have decided that it's more fun to go to work than to take Fido for a

American girls will never cease to fall for polished foreigners, who seem to know so much more about women and the subtleties of lovemaking that the bluff "he-man" type of American, who regards it as "sissified" to kiss a woman's hand, but not to kiss her lips. Oh yes, those foreign dukes and princes who are cluttering up these chores may sometimes make expensive husbands, but they do make alluring and thrilling lovers.

And that's something! It isn't really the title which wrecks the "International Alliance," and so often turns it into a front-page tragedy or scandal.
It's the money involved! It's the nillions-not the coronet.

No really well-born European takes his title seriously. As a young Italian explained to me, if a count in Italy has 12 sons, they are all "counts." That count-stuff means about as much over there as our 'esquire" means over here. In business a title is a handicap, not an asset.

The success or failure of an international marriage, I honoutly be-Here, depends first on the sort of man the girl chooses, and second on the nationality from which she chooses him.

A Drugless Way to Get 8 Hours of Sound, Natural Sleep

TERE is a way you can be sure of getting a I "good night's sleep" tonight. A way that is safe, sane, and simple—that entirely avoids the use of drugs and sedatives.

It is a way that thousands of doctors advise. It gives you natural sleep! Sound, restful sleep that rebuilds and rejuvenates you both in mind and body! A way, in fact, that greatly improves the quality of sleep. So that you feel easily refreshed next day.

This remarkable effect is made possible by a delicious food concentrate, first created in Switzerland-now made over here. It contains no drugs—is not a medicine—but is composed wholly of elements processed from natural foods. These elements act to rebuild the body, brain and nerve tissue while you sleep. years. GH Dobie's Ithaca machine generated considerable power in pushing over its first two rivals. Michigan, Big Ten champion last year, opened its campaign with a 20-6 triumph over Michigan State, Bill Renner, a heady quarterback and good passer, and Ted Petosky, fleet end, are expected to star for the Wolverines. Among the stars Cornell is counting on to stop Michigan are Walt Switzer, speedy quarterback, and Jack Wallace, an outstanding end. (Associated Press photos).

One of the steady of the s

Wool Market.

By The Associated Fress

BOSTON, Oct. 13—The Commercial Bulletin will say tomorrow.

The demand for wool has leasened materially in the past week although prices have been very firmly maintained for all descriptions. Holders of wool consider the present shortness in spring supplies as likely to result in even higher prices, even on restricted demand. From reports from the wholesale clothing centers indicate a continued demand for ciothing and the manufacturers of goods are still consuming wool heavily.
